Graduated 2012

### Summary

As an experienced software developer with 6 years of experience, I have developed, analysed, tested, and maintained web applications using PHP, SQL Server, MySQL, JavaScript, jQuery, CSS, and Bootstrap.

As part of my previous roles, I am familiar with the following frameworks/technologies React, Vuejs, Angular, Python, Nodejs, C#, Laravel, CSS3, REST API, CMS, Git, SCRUM methodology, Cordova, Ionic, Excel, Power BI, Linux, Adobe suite, Figma and Unity.

Throughout my career, I have demonstrated a strong ability to work collaboratively with cross-functional teams to deliver high-quality software solutions. I am highly skilled in problem-solving and have a deep understanding of software development best practices. Additionally, I am experienced in agile development methodologies and I have worked in both team-based and independent environments.
